

PLAY **Pebble Beach**

Allied Services is a designated beneficiary of Lexus Champions for Charity. As the regional designee, we conduct a raffle with 250 chances to win the once-in-a-lifetime opportunity to play in the three-day Pebble Beach golf tournament. Thanks to MotorWorld Lexus and your support, we are able to raise vital funds for autistic children and their families.

One lucky winner will attend and play in the 2025 Lexus Champions for Charity National Championship, along with a friend, at the Pebble Beach Resorts in Pebble Beach, California.

The 2025 Lexus Champions for Charity Pebble Beach winner will be selected at the end of the dinner and auction.

Dear Friends and Supporters,

For more than 30 years, the Autism Golf Classic has supported vital autism services for children in Northeastern Pennsylvania. Your contributions have enabled Allied Services to provide a growing number of therapy services using the latest methods and technologies. In the last year, we provided more than 33,000 pediatric therapy visits!

We need your continued support to provide services for children on the autism spectrum.

From sensory integration to vision therapy, picky eaters to socialization and gait training programs, we're here to support the needs of autistic children. With your help, we will continue to invest in programs and therapy services that benefit children with autism at our Wilkes-Barre Rehab Hospital.

Sincerely,

Golf Classic Planning Committee

the financial impact of autism

According to the Centers for Disease Control, Autism is one of the fastest growing developmental disorders in the U.S., affecting 1 in 36 children. Treatment and services are typically not covered by insurance causing an out of pocket annual expense of \$60,000 for most families.

Allied Services Wilkes-Barre Rehab Hospital provides therapy to any child with autism, regardless of the family's ability to pay. An average 13-week speech therapy session costs approximately \$4,000. This year's proceeds will help to defray the cost of such services. None of the money raised will be used for salaries.

Major Sponsor Augmentative Communication Computer can be used as part of occupational therapy programs to assist children with an alternative method to written communication.

Feature Sponsor The JCC Camp Scholarship in memory of Susan Yelen provides access to socialization experiences for pediatric patients whose families cannot afford the camp.

Friend of Tournament Oral and Tactile Sensory Tools for 40 children with Autism: In-home carry over can be very costly for families. An inventory of oral motor chewy tubes and sensory brushes would provide necessary tools for home programs at no cost to the families.
